Executive Summary

This aggregate statistical report of taxes collected from corporations and certain other businesses fulfills the requirements of section 82 of chapter 62C of the General Laws, as established by Chapter 402 of the Acts of 1992.

Contents of the Report

The report provides summary information on the tax owed, income, and use of credits, deductions, exemptions, and exclusions by corporations doing business in the Commonwealth. The statistical tables cover each type of corporation subject to the Massachusetts corporate excise under M.G.L. Chapter 63, including business corporations, financial institutions, insurance companies, and public utilities. Information for the report is drawn from tax returns filed with the Department of Revenue for tax year 2005; as provided by section 82, information not reported on Massachusetts tax returns for tax year 2005 is not included in this report.

The tables in this report present consolidated total amounts by industry and by the amount of gross receipts, Massachusetts taxable income, and corporate excise due. In all cases, both the number of corporations reporting and the total dollar amount of a line item are given. Additional information about the structure of the business corporation, financial institution, insurance company, and public utility excises is provided in an appendix at the end of this report.

To the extent that data were available, the tables report all deductions, exemptions, and exclusions allowed under Massachusetts General Law for tax year 2005.

Industry group detail tables are provided for business corporation line item data, since corporations from many different industry groups are required to file such returns. The data presented in the tables reflect information as filed by the corporate taxpayer and have not been adjusted for subsequent audit or enforcement activity by the Department.

Missing or Not Applicable Data

The tables in this report are based upon line item information from taxpayers' returns which may have missing information or which may be inapplicable to some detail subcategories presented in the table. In all cases, the aggregate amounts reported include all available information for a line item, subject to restrictions to preserve the confidentiality of taxpayer data. An example of missing data: some returns lacked North American Industry Classification (NAICS) codes. Therefore, information for those returns is reported in the "Missing or Not Applicable Data" columns of the industry group detail tables. An example of data not applicable: the line item for Income Subject to Apportionment is not present for corporations filing as Small Business Corporations. These corporations are required to have all their income derived from Massachusetts activity, so there is no apportionment involved.

Confidentiality of Taxpayer Data

The results presented in the tables comply with the Commonwealth's laws regarding the confidentiality of taxpayer data, including the relevant provisions of section 82, and the rules for implementing those laws. These rules disallow the reporting of line item information for an individual corporation; therefore, when the data upon which this report is based pertain to less than three corporations, no dollar amount has been disclosed.

Changes from the 2004 Report

The statistics in this report reflect the following major tax law changes from 2004 that affected 2005 corporate excise collections. These are:

1. The new federal production activity deduction rule.

Massachusetts has decoupled from the American Jobs Creation Act of 2004, Public Law 108-357.

For corporate excise purposes, the definition of net income does not include the new federal production activity deduction. See TIR 05-5 for further information.

2. Restated the description of the sales factor for purposes of the apportionment formula.

Recent legislation has restated the description of the sales factor for purposes of the apportionment formula for taxable years beginning on or after January 1, 2005. The law clarifies that gross receipts of a corporation include all deemed receipts from transactions that are treated as sales or exchanges for federal income tax purposes. It also requires allocation, not apportionment, of the gross receipts from transactions or activities that are fully allocable to the corporation's state of commercial domicile under state and federal law. The law further provides that in case of dispositions of capital assets, sales are measured by gain rather than proceeds, and clarifies that the exclusion from gross receipts for dispositions of securities extends to dispositions of items such as accounts receivable and foreign currencies.

3. Three new tax credits are available.

For tax year 2005, three new credits are available for corporate taxpayers. Included are the Historic Rehabilitation Credit, the Home Energy Efficiency Credit and the Solar Heat Credit.

The Historic Rehabilitation Tax Credit:

To claim this credit, a historic rehabilitation project must be complete and has been certified by the Massachusetts Historical Commission. Unused portions of the credit may be carried forward for a maximum of five years. This credit may be transferred or sold to another taxpayer. The HRC is not subject to the 50% limitation rule for corporate taxpayers. For further information, see Regulation 830 CMR 63.38R.1.

The Home Energy Efficiency Credit:

The owner of residential property located in Massachusetts is allowed a credit for certain energy efficient items purchased between November 1, 2005 and March 31, 2006 for installation in residential property. The credit allowed for the installation of qualifying purchases for any one residential building is 30% of the cost. The credit cannot exceed \$600 for a single residential unit or \$1000 for a multi-dwelling unit. For further information, see TIR 05-18.

The Solar Heat Credit:

Massachusetts allows a credit of up to \$300 for the installation of a solar hot water heating system in a commercial building between November 1, 2005 and March 31, 2006. For further information, see TIR 05-18.

Table 2

*To maintain confidentiality of tax return information, line item detail for corporations with negative gross receipts was combined with that for corporations with zero gross receipts. It also includes information on security corporations, which have different tax structure than other corporations and are not required to provide information on gross receipts.

Table 3

*The minimum corporate excise is \$456 for all corporations, including security corporations.

Table 4

*Because losses were not included in the aggregate statistics of Massachusetts Taxable Income, ranges are only greater than or equal to zero for this year's report. It also includes information on security corporations, which have a different tax structure than other corporations and are not required to provide information on gross receipts.

Appendices

Appendix A: The Corporate Excise **Description of Massachusetts Business Corporation Excise**

PART 1: INCOME EXCISE

1. Gross Receipts or Sales

A corporation's gross receipts or sales, less returns and allowances as stated on US Form 1120, line 1c (Massachusetts Form 355A, 355B, 355S-A, 355S-B, 355CA, 355CB, 355SBC, Schedule E, Item 1 before tax year 2000; Form 355, 355S, 355C, 355SBC for tax year 2001 and after).

2. Gross Profit

A corporation's gross receipts less cost of goods sold as shown on US Form 1120, line 3 (Schedule E, line 2).

3. Federal Net Income

Total income minus total deductions as stated on US Form 1120, line 28. More specifically, this item reflects a corporation's federal taxable income before net operating losses and special deductions are applied (Schedule E, Item 4).

4. Income Subject to Apportionment

Income subject to apportionment is federal net income with certain adjustments. A deduction equal to the amount of the US Jobs/Wages Credit is allowed. The following items which are excluded from federal net income must be included in income subject to apportionment:

- State and municipal bond interest (Schedule E, Item 7)
- Foreign, state or local income, franchise, excise or capital stock taxes (Schedule E, Item 8)
- Section 168(k) "Bonus" depreciation is disallowed (Schedule E, Item 9)
- Section 31I and 31K intangible expense add back adjustment (Schedule E, Item 10)
- Section 31J and 31K intangible expense add back adjustment (Schedule E, Item 11)
- Federal Production activity add back adjustment (Schedule E, Item 12)
- Other adjustments (Schedule E, Item 13)

The following deductions are then subtracted from federal net income to arrive at income subject to apportionment:

- Abandoned building renovation deduction (Schedule E, Item 15)
- Allowable dividends deduction (Schedule E, Item 16)
- Exceptions to the add back of intangible expenses (Schedule E, Item 17)
- Exceptions to the add back of interest expenses (Schedule E, Item 18)
- Allowable loss carryover (Schedule E, Item 20)

5. Massachusetts Apportioned Income

A corporation's Massachusetts apportioned income is determined by multiplying income subject to apportionment by the apportionment percentage (Schedule E, Item 23).

6. Massachusetts Taxable Income

Income taxable in Massachusetts is determined by deducting the following amounts from Massachusetts apportioned income: the income not subject to apportionment (Schedule E, Item 24) and the certified Massachusetts solar or wind power deduction (Schedule E, Item 25).

7. Income Excise

A corporation's income excise is determined by multiplying its taxable income in Massachusetts by the applicable tax rate. For Corporations (Form 355), C corporations (Form 355C) or Small Business (Form 355SBC), the tax rate is 9.5% (Computation of Excise, Item 3). If two or more C corporations are organized as a combined corporate group, the income excise is reported by the principal reporting, or parent corporation only. For businesses organized as S corporations (Form 355S), the income excise depends on the total income of the corporation (Computation of Excise, Item 4). If the total income is less than \$6 million, then

there is no income excise levied. If total income is between \$6 and \$9 million, the tax rate is 3%. If total income is \$9 million or more, the tax rate is 4.5% (Forms 355S, Computation of Excise, Item 6).

PART 2: NON-INCOME EXCISE

8a. **Taxable Massachusetts Tangible Property**

Applicable only to tangible property corporations. Generally, a tangible property corporation is a corporation which owns significant tangible property in the Commonwealth. A corporation is classified as a tangible property corporation if its qualifying Massachusetts property is 10% or more of its qualifying total Massachusetts assets apportioned according to the income apportionment percentage. Qualifying property is any property not subject to local taxation.

Taxable Massachusetts property is the net book value (cost minus allowable depreciation) of total Massachusetts tangible property minus exempt property tax. Exempt from Massachusetts tangible property is property subject to local taxation, as well as certified Massachusetts waste or air treatment facilities and certified solar or wind power facilities.

8b. **Taxable Net Worth**

Applicable only to intangible property corporations. Generally, an intangible property corporation is a corporation which owns insignificant tangible property in the Commonwealth. A corporation is classified as an intangible property corporation if its qualifying Massachusetts property is less than 10% of its qualifying total Massachusetts assets apportioned according to the income apportionment percentage. Qualifying property is any property not subject to local taxation.

Except as noted below, deductions are allowed against a corporation's net worth for capital stock and equity investments in some subsidiary corporations. Foreign corporations are allowed to exclude from Massachusetts assets investments in and advances to foreign subsidiaries for which it owns at least 80% of all voting stock and which are not registered or doing business in the Commonwealth. For domestic corporations, a deduction is given for investments in Massachusetts-based subsidiaries for which at least 80% of all voting stock is owned. In tax year 2005, a new statute eliminated the distinction in the net worth calculation between domestic and foreign corporations. It also provided a single formula for determining the net worth of an intangible property corporation.

See TIR 04-29.

In a recent court ruling (see *Perini Corporation v. Commissioner of Revenue*), the above treatment of capital stock and equity investments in some subsidiaries was ruled unconstitutional by the Massachusetts Supreme Judicial Court because it is in conflict with the Commerce Clause of the US Constitution. As a result of the *Perini* decision, domestic and foreign corporations deduct the value of all investments in and advances to 80% or more owned subsidiaries when calculating their taxable net worth.

9. **Non-Income Excise**

A corporation's non-income excise is determined by multiplying the value of either taxable tangible property or net worth by the tax rate of \$2.60 per \$1,000, or 0.26% (Computation of Excise, Items 1 or 2).

TOTAL EXCISE

10. **Excise Due**

Excise due is the larger of the following two items: the sum of the income, non-income excise and credit recaptures after deducting allowable tax credits -- the economic opportunity area credit, the 3% investment tax credit, the vanpool credit, the research credit, the harbor maintenance tax credit, the full employment credit, the brownfields credit, low income housing credit, the historic habilitation credit, the home energy efficiency credit, the solar heat credit, and any credits carried forward from previous tax years; or the minimum excise of \$456.

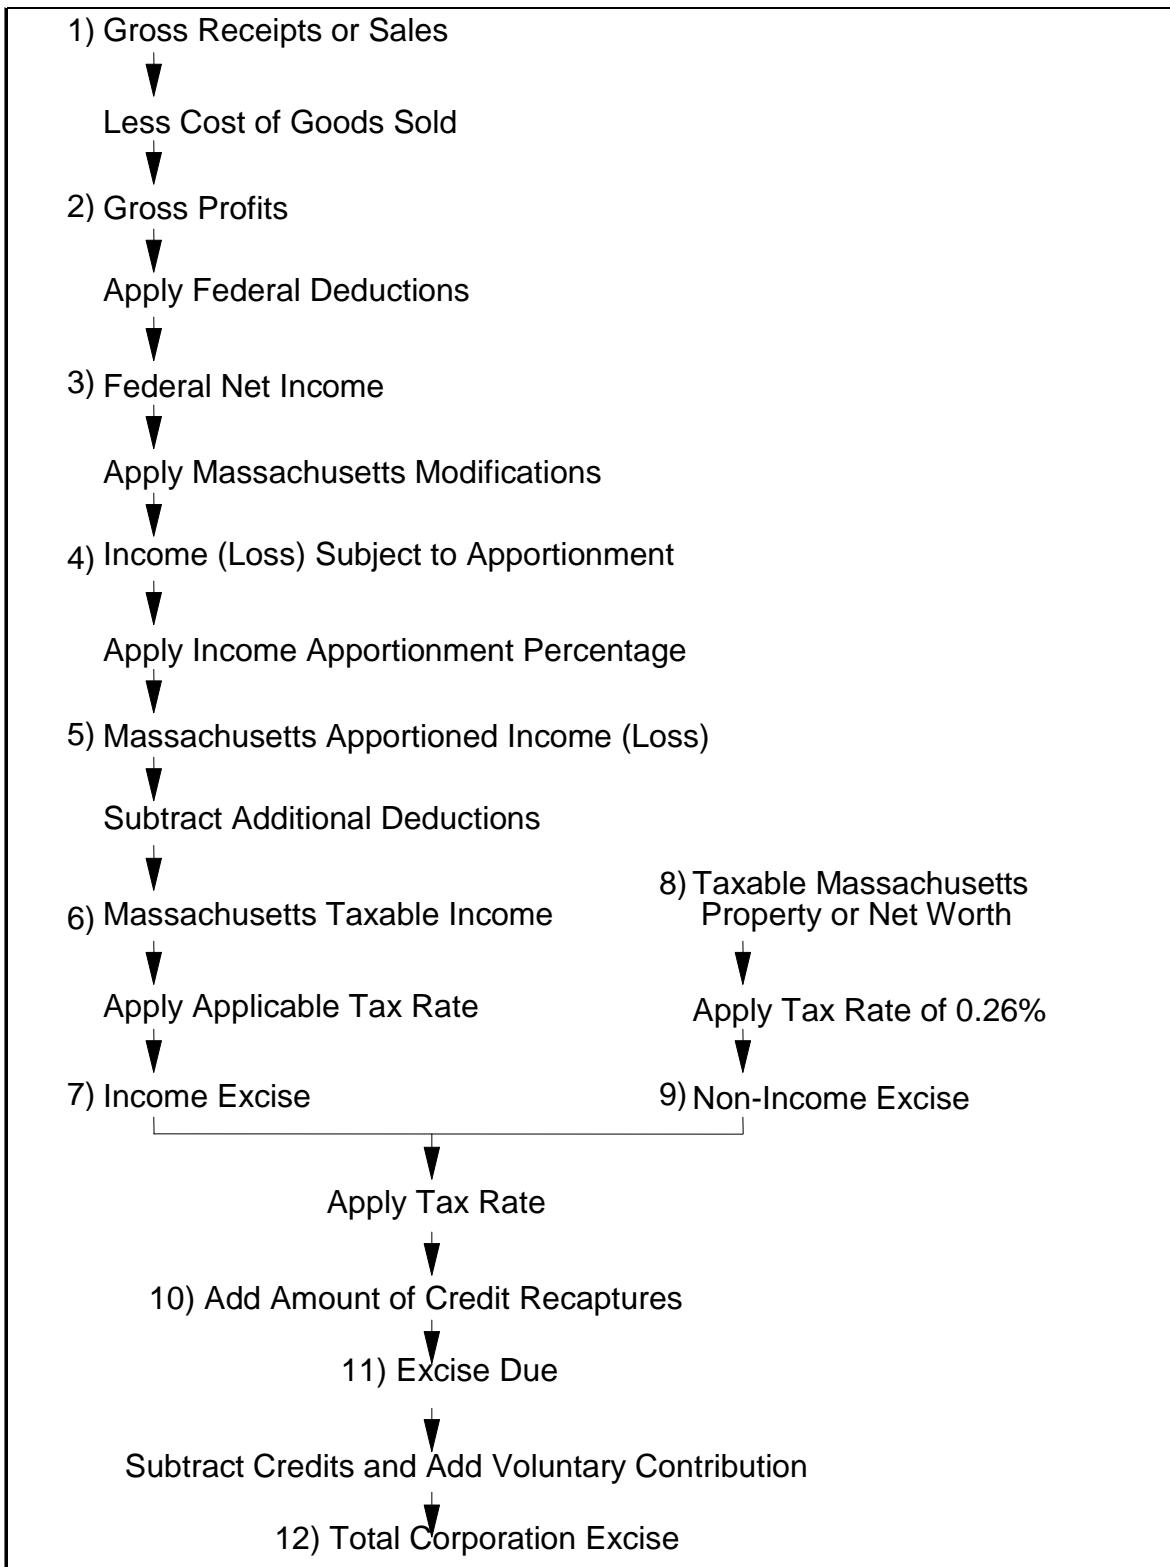

The credit recapture amount includes the amount of the investment tax credit recapture, economic opportunity area tax credit recapture, brownfields credit recapture, low-income housing credit recapture, vanpool credit and historic habilitation credit recaptures.

In general, the maximum amount of tax credits which may be used in any one taxable year cannot exceed 50% of the excise imposed. (However, this 50% limitation does not apply to research and development credits.) A corporation may carry over and apply the remaining credits not allowed because of this limitation to the excise for any subsequent taxable year. Credits are not allowed to reduce a corporation's excise below the minimum tax.

11. **Total Corporation Excise**

Total corporation excise is calculated by adding the voluntary contribution to the endangered wildlife conservation fund to excise due.

Chart A-1: Computation of Massachusetts Business Corporation Excise

Appendix B: The Financial Institution Excise Description of Massachusetts Financial Institution Excise

1. Federal Net Income

Total income minus total deductions as stated on US Form 1120, line 28. This item reflects a corporation's federal taxable income before net operating losses and special deductions are applied. Note that under the Internal Revenue Code, financial institutions are taxed as business corporations, not separately as under the Massachusetts General Law (Form 63 FI Schedule A, Item 2).

2. Total Adjusted Taxable Income

Federal net income adjusted for the different definitions of taxable income between the federal and state tax codes.

The following items must be added to federal net income to arrive at adjusted income (Schedule A, Item 10):

- State and municipal bond interest (Schedule A, Item 3)
- Foreign, state or local income, franchise, excise or capital stock taxes (Schedule A, Item 4)
- Net capital loss carryover used to reduce capital gains (Schedule A, Item 5)
- Section 168(k) "Bonus" depreciation disallowed (Schedule A, item 6)
- Other income (Schedule A, Item 7)
- Section 31I and 31J intangible and interest expenses (Schedule A, Item 8)
- Federal production activity add back (Schedule A, Item 9)

The total adjusted taxable income (Schedule A, Item 17) is equal to the above adjusted income subtracting Abandoned Building Renovation Deduction (Schedule A, Item 11), Dividends Deduction (Schedule A, item 12), and Exceptions to the Add Back of Interest and/or Intangible Expenses (Schedule A, Item 13) then multiplied by the apportionment percentage (Schedule E, Item 5).

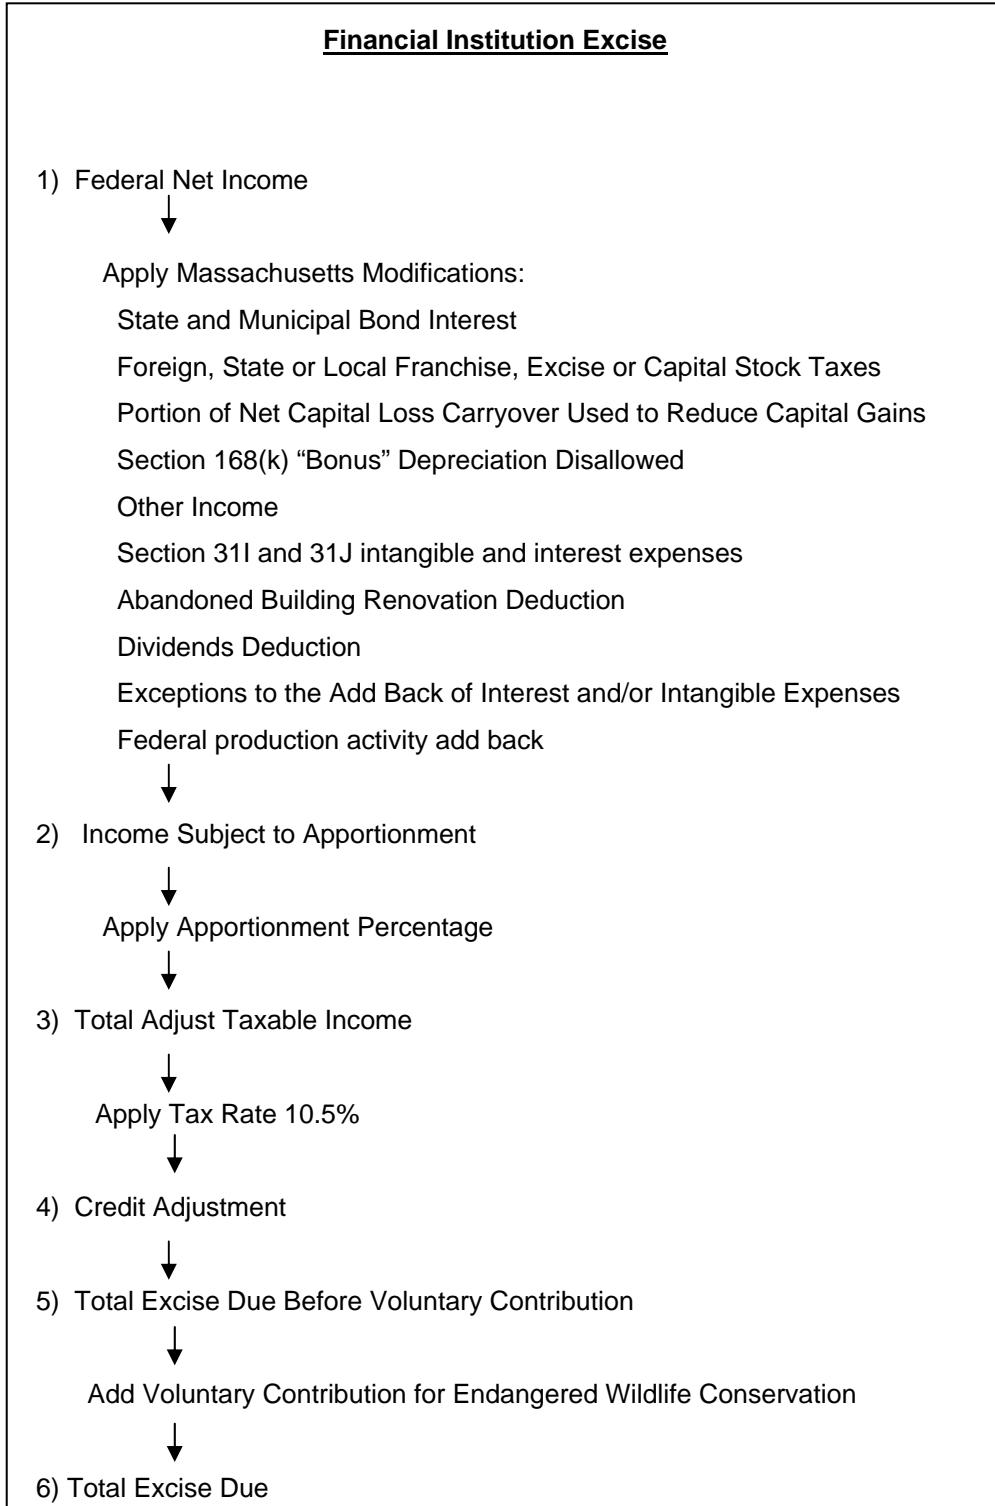

3. Excise Due

Excise is determined by multiplying total adjusted taxable income in Massachusetts by the tax rate of 10.5% (Form 63 FI, Item 3). Excise due is equal to this excise plus credit recapture, minus the economic opportunity credit, the full employment credit, the low-income housing credit, the historic rehabilitation credit, the home energy efficiency credit, and solar heat credit (Form 63 FI, Items 4, 5, 6, 7, 8 and 9), but not less than minimum tax \$456.

4. Total Excise Due After Voluntary Contribution

The total excise due (Form 63 FI, Item 11) is calculated by adding any voluntary contribution to the Endangered Wildlife Conservation Fund (Form 63 FI, Item 10) to the excise due (Form 63 FI, Item 9).

Chart B-1: Computation of the Financial Institution Excise

Appendix C: The Public Service Excises

Description of Massachusetts Public Service Corporation Excises

The public service company excises cover two different groups of organizations. The first is the public service corporations that provide gas, electric and water service, public transportation and telephone service to Massachusetts residents. The second group is the organizations involved in urban redevelopment projects.

Public Service Corporations

The companies file a Form P.S.1 and pay an excise on their apportioned adjusted federal net income. The federal net income as calculated on the federal Form 1120 is used as the starting point and adjusted to conform to the Massachusetts definition of taxable income. The adjustments made are: add taxes paid to other jurisdictions which are subtracted from federal net income; add interest earned from state and municipal bonds; add the portion of net capital loss carryovers used to reduce capital gains (from US Form 1120, Schedule D); add Section 168(k) "Bonus" depreciation disallowed; add Section 31I and 31J intangible and interest expenses; add federal production activity add back; add other income not included above; subtract dividends received from other utility corporations for which 80% or more of voting stock is owned; subtract abandoned building renovation deduction; and subtract exceptions to the add back of interest and/or intangible expenses. This adjusted net income amount is then apportioned to reflect Massachusetts activity using an equally-weighted, three-factor formula based on payroll, property and sales. If only one or two of three factors apply, an equally-weighted one or two factor formula is used.

Once Massachusetts taxable income is calculated, a tax rate of 6.5% is applied. Total excise tax is then calculated by adding credit recapture and subtracting the economic opportunity area credit, the full employment credit the low-income housing credit, the historic rehabilitation credit, the home energy efficiency credit, and solar credit; and adding any voluntary contribution to the Endangered Wildlife Conservation Fund.

Public service corporations do not face a minimum excise as do business corporations.

Urban Redevelopment Organizations

Corporations, partnerships, trusts and individuals that redevelop a site in an urban area for reuse are subject to tax under Chapter 121A of the Massachusetts General Laws. They are required to file a Form 121A for this excise.

The excise consists of two parts. The first is a 5% tax on gross income from all sources, defined as payments received from persons for the right to reside in or occupy a portion of a redeveloped project less federal interest deduction payments. The second is a 1% tax on the fair cash value of owned or leased real and tangible personal property exempt from local taxation.

There is also a provision for a minimum tax based on the three-year average assessed value of owned or leased real and tangible personal property before it was made exempt from local taxation. The final excise due is the greater of the minimum excise and the excise based on gross income and fair cash value of property.

PUBLIC SERVICE CORPORATIONS

1. Federal Net Income

Total income minus total deductions as stated on US Form 1120, line 28. More specifically, this item reflects a corporation's federal taxable income before net operating losses and special deductions are applied. Note that under the Internal Revenue Code, public utilities are taxed as business corporations, not separately as under the Massachusetts General Law (Form P.S. 1, Computation of Franchise Tax, Item 1).

2. Total Income : Federal net income adjusted for the different definitions of taxable income between the federal and state tax codes. The following items must be added to federal net income to arrive at total income (Computation of Franchise Tax, Item 7):

- State and municipal bond interest (Computation of Franchise Tax, Item 2)
- Foreign, state or local franchise, excise or capital stock taxes (Computation of Franchise Tax, Item 3)
- Net capital loss carryover used to reduce capital gains (Computation of Franchise Tax, Item 4)
- Section 168(k) "Bonus" depreciation disallowed (Computation of Franchise Tax, Item 5)

- Section 31I and 31J intangible and interest expenses (Computation of Franchise Tax, Item 6)
- Federal production activity add back (Computation of Franchise Tax, Item 7)
- Other income (Computation of Franchise Tax, Item 8)

3. Adjusted Net Income

Total Income determined above is adjusted for the receipt of dividends from utility companies of which at least 80% of the stock is owned by the public service corporation, the abandoned building renovation deduction, and exceptions to the add back of interest and/or intangible expenses. This is the amount of income that is subject to apportionment (Computation of Franchise Tax, Item 13).

4. Massachusetts Taxable Income

Adjusted net income is multiplied by the income apportionment percentage to determine the income taxable in Massachusetts (Computation of Franchise Tax, Item 15).

5. Excise Due

A public service corporation's excise is determined by multiplying its Massachusetts taxable income by the tax rate of 6.5%; plus any credit recapture; minus the economic opportunity area credit, the full employment credit, the low-income housing credit, historic rehabilitation credit, the home energy efficiency credit and solar the solar heat credit (Computation of Franchise Tax, Item 25).

6. Total Excise Due After Voluntary Contribution

The total excise due is calculated by adding any voluntary contribution to the Endangered Wildlife Conservation Fund to the excise due (Computation of Franchise Tax, Item 27).

URBAN REDEVELOPMENT ORGANIZATIONS

1. Gross Income From All Sources

This covers all income generated from the redeveloped site through payments made by persons for the right to reside in or occupy a portion or all of the project (Form 121A, Computation of Excise, Item 1A). Only federal interest deduction payments are permitted to reduce income according to this concept. This income is subject to a 5% tax (Computation of Excise, Item 1B).

2. Fair Cash Value of Property Exempt From Local Taxation

The fair cash value of owned or leased real and tangible property exempt from local taxation is also subject to tax (Computation of Excise, Item 2A). Such property deemed tax-exempt as of January 1, 2005 is subject to a state-level tax of \$10 per \$1,000 of value, or 1% (Computation of Excise, Item 2B).

3. Excise Due Based on Income and Fair Cash Value

This is the sum of the 5% tax on gross income and the 1% tax on the fair cash value of property exempt from local taxation (Computation of Excise, Item 3).

4. Minimum Excise

The minimum excise faced by urban redevelopment organizations is based on the three-year average fair cash value of property not subject to local taxation. The local tax rate from fiscal 2005 is applied to this average value to determine the minimum excise amount (Computation of Excise, Item 7).

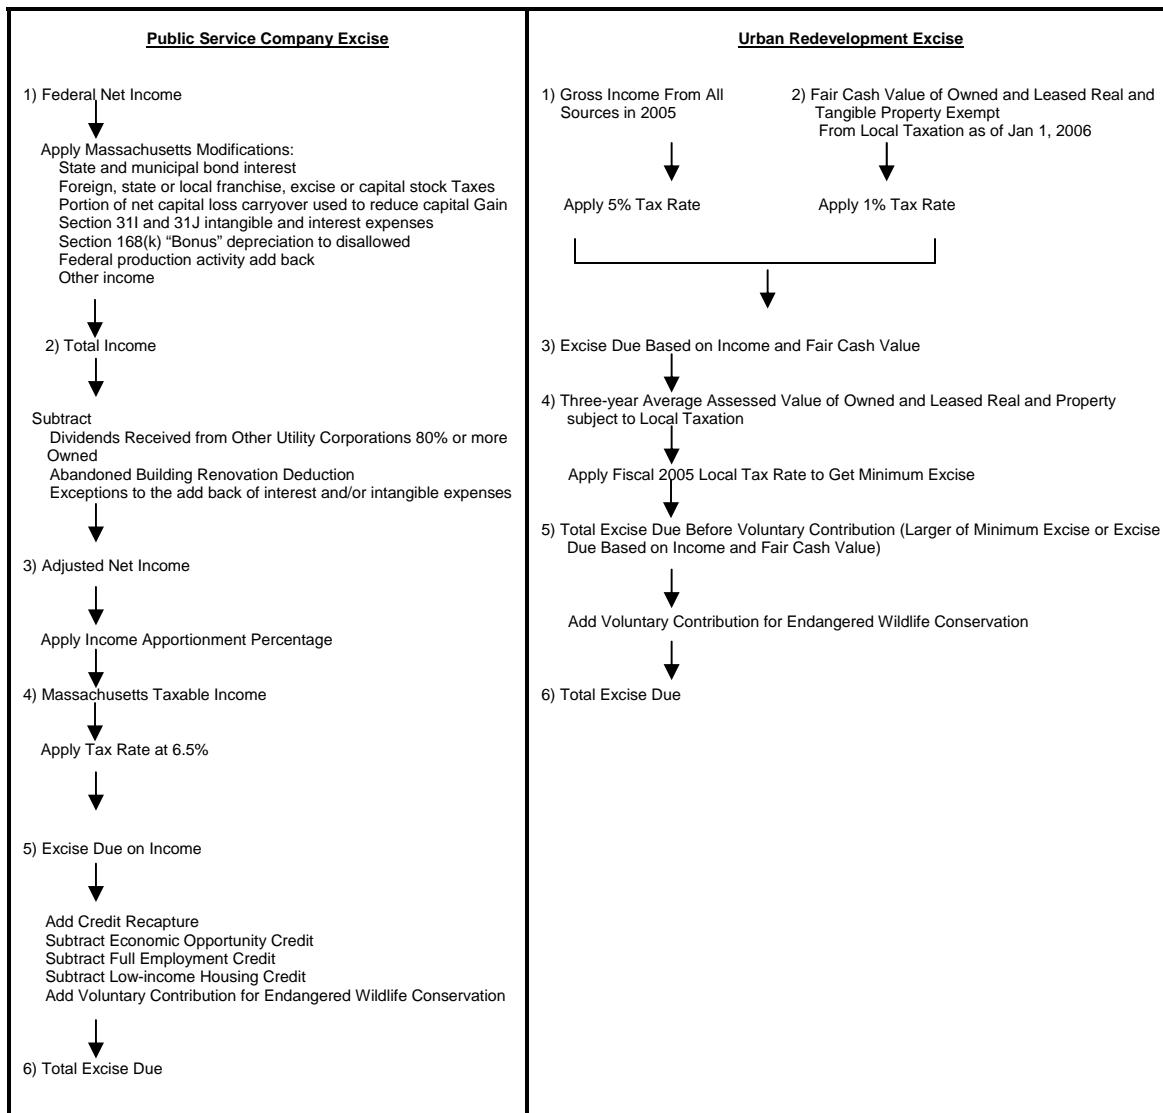

5. Total Excise Before Voluntary Contribution

This is the larger of either the minimum excise or the excise based on income and fair cash value of property exempt from local taxation (Computation of Excise, Item 8).

6. Total Excise Due

The total excise due is calculated by adding any voluntary contribution to the Endangered Wildlife Conservation Fund to the excise due (Computation of Excise, Item 10).

Chart C-1: Computation of the Massachusetts Public Service Organization Excises

Appendix D: The Insurance Company Excises

Description of Massachusetts Insurance Excise

In 2005 Massachusetts taxed insurance companies differently than other business corporations. Both the basis for taxation and tax rates differ among the various types of insurance companies -- life insurance companies, ocean marine and other insurance companies, and property and casualty companies.

Determination of Excise

Life Insurance Companies

In 2005, life insurance companies authorized to do business in the Commonwealth were subject to a premium-based excise. Domestic life insurers were liable for an additional investment privilege excise.

Premium Excise:

The premiums-based excise is imposed on life and accident and health (A&H) premiums received during the preceding calendar year which are allocable to Massachusetts. (Premiums for approved Preferred Provider organizations are taxed separately. See Preferred Provider Organizations for details.) For foreign companies, life premiums are allocable to Massachusetts if the insured is a resident of Massachusetts. A&H premiums are allocable to Massachusetts if the premiums are paid to insure property or interest in the state. For domestic companies, all premiums are allocable if the insured is a resident of Massachusetts or a resident in a jurisdiction where no tax is paid by the insurance company. Like most states, Massachusetts exempts annuity premiums from taxation. Massachusetts also imposes retaliatory taxes on insurance companies based in states that impose retaliatory taxes on Massachusetts-based companies.

Certain adjustments must be made to net life and A&H premiums to determine the value of premiums taxable in the Commonwealth. Dividends paid by the insurance company to policyholders which are applied to purchase additional insurance or to shorten the premium paying period are generally not included in net premiums, and must be added to foreign and domestic life premiums and domestic accident and health premiums. However, deductions are allowed for these dividends.

The Commonwealth allows other dividend-related deductions: deductions for dividends paid by the insurance company to policyholders which are either paid in cash, applied to future premiums, or left to accumulate interest. A deduction is also allowed for premiums returned to policyholders (not including cash surrender values).

Domestic corporations are allowed an additional deduction for premiums for employee group life and accident and health plans.

The excise on taxable life and accident and health premiums is calculated at a 2.00% rate. Foreign insurers are liable for the larger of the excise as calculated according to retaliatory provisions, or the excise calculated according to Massachusetts provisions as described above.

All insurance companies that are authorized to do business in the Commonwealth are entitled to a credit as members of the Massachusetts Life and Health Insurance Guaranty Association. The Massachusetts Life and Health Insurance Guaranty Association was established to protect policyholders against the insolvency of member insurers by assuming the obligations of a member insurer that cannot meet its contractual obligations. In order to carry out its duties, the Association assesses its members for certain costs. However, members are allowed a credit against their excise equal to 10% of assessments for five calendar years. In effect, the credit provides an offset of 50% of the Association's assessments over a five-year period. The credit is limited to \$3 million for all member insurers for a calendar year.

The credit is based on the annual assessment in the prior year, with the assessments for 1991 being the first year eligible for this credit.

Domestic life insurers can also claim a credit against their premium excise equal to 1.5% of the company's proportionate share of the cost of certain investments in the Massachusetts Capital Resource Company. The Massachusetts Capital Resource Company was established in 1977 to provide capital financing for businesses, and was funded through assessments on domestic life insurers.

Premiums excise due is the premium excise (or, for foreign insurers, an excise calculated according to retaliatory provision) less allowable credits. Since 1989, insurance companies can also make a voluntary contribution for endangered wildlife conservation.

Investment Privilege:

In 2004, domestic insurers were no longer subject to an investment privilege excise.

Other Insurance Companies

Life insurers and insurance companies engaged in ocean marine business are subject to taxation in the Commonwealth under separate provisions of the law. All other insurers, primarily property and casualty insurers, are subject to taxation based on the amount of premiums subject to tax in Massachusetts. Domestic insurers are liable for an additional excise on investment income.

Premium Excise:

Insurers taxable under these provisions are subject to an excise based on the amount of net direct premiums subject to tax in Massachusetts. Net direct premiums are, for Massachusetts purposes, gross premiums adjusted for certain other items such as additional assessments made on policyholders. Premiums and charges are subject to tax in Massachusetts if, for foreign corporations, the premiums relate to property or interests in Massachusetts or, for domestic corporations, if premiums are written in Massachusetts or in a jurisdiction where no tax is paid.

Both domestic and foreign insurers are allowed a deduction for premiums which are returned or credited to policyholders in Massachusetts as dividends. Net premiums, less the dividend deduction, are taxed at a 2.28% rate. Earnings from the Massachusetts Property Insurance Underwriting Association and Crime Insurance Program ("Fair Plan" programs), which companies doing business in Massachusetts are required to participate in, are also subject to tax at the 2.28% rate.

Investment Income Excise:

Domestic insurers are also subject to an excise on gross investment income. Gross investment income includes all interest earned on bonds, loans and cash, on dividends, on real estate, and on other invested assets. In 2005, either a 1.00%, 0.8%, 0.6%, 0.4%, 0.2% or 0.0% tax rate was applied to a domestic insurer's gross investment income, depending on whether a company had contributed its full proportionate share to the Property and Casualty Initiative since January 1999.

Both foreign and domestic companies are entitled to a tax credit as members of the Massachusetts Life and Health Insurance Guaranty Association. Members are allowed a credit against their excise equal to 10% of assessments for five calendar years. In effect, the credit provides an offset of 50% of the Association's assessments over a five-year period. The credit is limited to \$3 million dollars for all member insurers for a calendar year.

Foreign insurers are liable for the larger of the excise as calculated according to retaliatory provisions, or the excise calculated according to Massachusetts provisions as described above.

Preferred Provider Organizations

Since 1989, premiums generated by authorized preferred provider organizations have been taxed separately from other accident and health premiums. Preferred provider organizations are those organizations that offer or administer a health benefit plan under a preferred provider arrangement as authorized by the Commissioner of Insurance. The Commonwealth taxes gross premiums generated by these organizations for coverage of Massachusetts residents, net of premiums returned or credited to policyholders as dividends, at a 2.28% rate.

Ocean Marine Business

Profits earned on ocean marine business are subject to a separate excise in Massachusetts. For purposes of this excise, ocean marine business means, in general, premiums related to the insurance of goods that are exported, imported, or transported by ocean.

The excise on ocean marine business is calculated based on a three-year average of net underwriting profits. Net underwriting profits are determined using total net premiums written in the United States during the taxable year as a starting point, and subtracting unearned premiums. Deductions are also allowed for losses incurred, net expenses, dividends, and federal income tax owed to arrive at net underwriting profit.

The average of the previous three-years' net underwriting profit is apportioned to Massachusetts using a ratio of the 3-year average of ocean marine business written in the Commonwealth to the three-year average of ocean marine business written in the United States. A 5.7% rate is applied to taxable profits to determine excise due in the Commonwealth.

Chart D-1: Summary of 2005 Tax Forms for Insurance Companies

Tax Form	Type of Company	Foreign or Domestic	Base of Tax	Tax Rate	Retaliatory Tax Provision
63-20P	Life Insurance	Domestic	Taxable life, accident and health insurance premiums, net value of policies	2% on life and acc./health ins. premiums, .25% on net value	N/A
	Life Insurance	Foreign	Taxable life insurance premiums attributable to Massachusetts, accident and health insurance premiums	2% on all premiums	Yes
63-23P	Insurance Companies, except Life Insurance or Ocean Marine	Domestic	Taxable (non-life) insurance premiums and gross investment income	2.28% on premiums, 1%, 0.8%, 0.6%, 0.4%, 0.2% or 0.0% on investment income	N/A
	Insurance Companies, except Life Insurance or Ocean Marine	Foreign	Taxable premiums for insurance of property or interests attributable to Massachusetts	2.28%	Yes
	Preferred Providers (Accident and Health Insurers, Nonprofit Hospitals, HMO's, and other nonprofit medical, optometric or dental companies)	Domestic and Foreign	Gross premiums for coverage of persons who reside in Massachusetts	2.28%	N/A
